LANGUAGES

English:

SUMMARY

Web Developer with an engineering background, combining 3 years of biomedical engineering studies and research experience with modern full-stack development. I am an adaptable and recursive person, capable of developing a strong workflow in high-pressure environments, while allowing myself to listen, contribute, and support others even in difficult situations.

SKILLS

Front End Development:

- HTML5, JavaScript, TypeScript
- Responsive Design
- React, Angular, Next.js
- TailwindCSS, SCSS, CSS3

Back-End & Databases:

- Python
- Django

• RESTful APIs

- Databases and data analytics
- SQL

More:

- Version Control Systems (Git, GitHub)
- Testing (Jest, basic TDD)
- Agile / SCRUM
- Deployment (Azure, AWS, Vercel, Netlify)

PROJECTS

Recipe App (Django)

Python, Django, HTML, CSS, SQL

- Developed a Django-based web application using the MVC (MVT) pattern.
- Designed relational models using Django ORM.
- Implemented CRUD functionality and user authentication.

Full Professional

Spanish:

Native/ Bilingual

WEBSITES & SOCIAL LINKS

- <https://www.danielescldrn.com/>
- www.linkedin.com/in/daniel-estrada-calderon-a98309300

- Built dynamic templates with Django Template Language (DTL).
- Used environment variables for secure configuration.

Tacos El Puebla Website

HTML, CSS, JavaScript, Bootstrap

- Built a responsive, mobile-first website using Bootstrap.
- Applied component-based layout principles for reusable UI sections.

myFlix (Full-Stack Application)

MongoDB, Node.js, Express.js, React, Angular

- Built a RESTful API using Node.js and Express, following an MVC-style architecture.
- Modeled server-side data with MongoDB and Mongoose, including schemas, validation, and relationships.
- Implemented JWT-based authentication and protected endpoints.
- Developed React client using functional components and hooks.
- Built an Angular client using services, routing, and modular architecture.
- Tested API endpoints using Postman and environment-based configuration.

EXPERIENCE

Catering Cook

Fancy That Bistro | Columbia, SC

01/2024 - Current Optimized kitchen workflows and workspace organization in a low-staff, high-volume catering environment, cutting prep time per order, increasing daily capacity, and contributing approximately \$500 per day in additional revenue. Creatively adapted recipes and actively listened to customers to meet custom client requests efficiently without impacting delivery timelines.

Food Truck Manager

Tacos el Puebla | Columbia, SC

04/2024 - 12/2025 Managed operations in a high-volume, low-staff food truck environment by innovating and creating order intake and delivery workflows, increasing speed and team communication while reducing customer complaints to near zero. Handled cash transactions, coordinated orders, and led a small team, developing strong leadership and multitasking skills.
